

Business Protection Check List

Did You Know?

- 60% of business data is on laptops.
- Exchange will fail four times per year for four hours on average.
- 60% of small businesses have had a restore fail.
- 77% of medium businesses have had a restore fail.
- 29% of businesses thought that their backup was good only to find that they could not restore.

YES NO

- | | | |
|--------------------------|--------------------------|---|
| <input type="checkbox"/> | <input type="checkbox"/> | Are your laptops and desktops protected automatically just like your servers? |
| <input type="checkbox"/> | <input type="checkbox"/> | Is a copy of your data being moved off site each day, safe from fire, flood, or sabotage? |
| <input type="checkbox"/> | <input type="checkbox"/> | Can you backup Microsoft, Linux, AND Apple too? |
| <input type="checkbox"/> | <input type="checkbox"/> | Can you create a new virtual server in 15 minutes or less when a server fails? |
| <input type="checkbox"/> | <input type="checkbox"/> | Can you do all of this without tasking existing or adding new personnel? |
| <input type="checkbox"/> | <input type="checkbox"/> | Can you do all of this without purchasing one dime of software or hardware? |
| <input type="checkbox"/> | <input type="checkbox"/> | Can you restore a mailbox or even your entire MS Exchange Server in under 30 minutes? |

If you checked "No" for any item above, we can help you protect your business.
